VEKWG128	VEKWG128	1X28W
VEKWG154	VEKWG154	1X54W
VEKWG214	VEKWG214	2X14W
VEKWG228	VEKWG228	2X28W
VEKWG254	VEKWG254	2X54W

INTENDED USE

Intended for unit installations, surface or suspended mounting. Ideal for applications that require good illumination levels. Suitable for general purpose applications. Rugged fixture design is enhanced with heavy-gauge wireguard to provide extra protection against damage that comes with locking mechanism that can be unlocked with a master key to provide a certain degree of vandal resistance.

CONSTRUCTION AND OPTICS

Channel, ends and socket brackets are manufactured from 22-gauge cold-rolled steel. Standard high-gloss white baked enamel, pre-treated with a five-stage iron phosphate system. Optional premium polyester powder coat finish, utilizing a seven-stage pretreatment process of iron phosphate, a non-chromium sealer and a de-ionized water rinse to provide superior adhesion and corrosion resistance. Heavy-gauge wireguard with locking mechanism.
