## LINE DRAWING

## INTENDED USE

The Regina Low Bright series of luminaires is suitable for general offices & VDU workstation areas. Louver material is specular cambered shaped (V). Ideal for retail, educational and commercial applications requiring lighting load as low as 2 watts/square meter/ 100 lux. 2'x4', 2'x2', 1'x4' and 1'x2' Imperial and Metric sizes available to meet most general illumination layouts.

## CONSTRUCTION AND OPTICS

Familiar industrial most widely used design for ease of installation to secure fixture to T-bar system with latch system hinged louver frame enable louver frame to hinged down and swing. Housing formed of high quality gauge sheet steel. Going through five-stage iron-phosphate pre-treatment ensures superior paint adhesion and rust resistance. Housing painted after fabrication with environmentally freindly, high-gloss, very high reflectivity epoxy powder- coat. High reflectivity mirror reflector achieved with anodized aluminium efficiently directs light downward. Louver cut-out and maximizes sheilding even in shallow plenum applications and softens light distribution to deliver a balance amount of light to both vertical and horizontal surfaces.

## DIMENSION OF FITTING

### Imperial / T-Bar (2 TUBE)

Model	L mm	L1 mm	W mm	H mm
REG07VITS2220T8	612	600	298	85
